

Sage 50 Accounts 2012

Key Features

- **Cash flow**
See how much you're making, what's due, what payments you need to make and what's already been banked
- **VAT returns**
Fully accredited by HM Revenue & Customs so you can prepare and submit VAT returns online
- **Customers and suppliers**
Match your customer and supplier info to quotes, invoices and communications, including details of deposits, discounts and credit
- **Sage Pay**
With Sage Pay you can instantly download your webstore transactions to your accounts, saving you time
- **Reports**
From an instant overview to the detailed facts and figures that help you understand your business

What's New

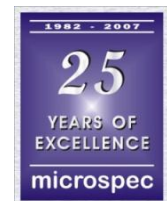

Getting up and Running – improvements include:

- Installation – simple 'Active Set-up wizard'
- Simplified network install via automated network share, discovery & net-setup
- Registration – simple online registration
- Simple online software activation

Daily Usability – functionality and performance improvements including:

- Use the lock a date to provide increased financial control
- Chart of Accounts – Increased flexibility in the chart of accounts
- Annual Return of Trading Details (Ireland) – New compliance
- Quick Search – increased efficiency via the new quick search feature
- Quick Print – set a default layout and conduct a quick print
- Support Home Page – Increased efficiency for both the user and Sage
- Performance – Increased investment in the development of the Sage 50 Accounts infrastructure to improve performance
- Accountant Dataset Manager (Client Manager) – Improving collaboration between the accountant and client

Growth Drivers – focus has been placed on developing our connected services strategy via:

- International Direct Payments – Pay suppliers seamlessly from within the software.
- Sage 50 Mobile – Allowing anytime/anywhere access via Sage 50 Mobile for iPhone, Blackberry and Android smartphones and iPads
